United States Rare Coins

On the following pages you will find a large and varied selection of choice United States numismatic material. This selection reflects the wide diversity of our rare coin inventory — an inventory assembled with you in mind.

Grading

Paramount uses an accepted industry-wide grading system that assigns a standard numerical value (1 through 70) to a coin, depending upon the coin's wear or degree of circulation. This system allows a greater degree of exactness necessary in today's numismatic world. Briefly, this is the system we use:

Mint State 70 = MS-70 (Perfect Uncirculated)
Mint State 67 = MS-67 (Superb Gem Uncirculated)
Mint State 65 = MS-65 (Gem Uncirculated)
Mint State 63 = MS-63 (Choice Uncirculated)
Mint State 60 = MS-60 (Uncirculated)
Almost Uncirculated 55 = AU-55 (Choice Almost Uncirculated)
Almost Uncirculated 50 = AU-50
Extremely Fine 45 = EF-45 (Choice Extremely Fine)
Extremely Fine 40 = EF-40

Lower condition coins are also included in this system. However, because Paramount deals primarily in choice quality material, you will seldom see any coin under EF-40 listed in the *Paramount Collector*.

As always, we assure you of accurate grading and guaranteed authenticity. All orders are sent postpaid. As many items are one-of-a-kind, we suggest you do include an alternate choice.

Thank you.

SMALL CENTS

1858, J-208, MS-65. Pattern Indian Head cent. The obverse is the Indian design as adopted in 1859. The reverse has the word ONE CENT in a laurel wreath 1300.00

1859, J-228, MS-65. Popular Indian Head cent pattern with the obverse of 1859 and reverse as adopted in 1860. Considered by many to be a regular Indian cent issue 1795.00

1861, MS-63. The rarest and most popular copper-nickel Indian cent of this type (1861-1865). This coin possesses light, even toning and full mint lustre. It is well struck with full feathers on all but two feather tips. It is kept from the MS-65 grade only because of minute flyspecking 745.00

1862, MS-60 ..... 145.00

1874, MS-63. This coin is virtually identical in quality to those offered elsewhere as MS-65 and MS-67. But in our opinion, it does not possess enough mint red to qualify for a higher grade. It is well struck with medium brown color dissolving to a light, lustrous golden brown along the periphery 400.00

1877, MS-65. The key to the Indian Head cent series with a mintage of just 852,500. This coin has light golden color with full mint lustre. The word "ONE CENT" on the reverse is also more sharply struck than the usually encountered 1877 cent. A prize acquisition for any numismatist, this coin is certain to be one of the first sold from this price list 4950.00

1887, MS-65. Semi-prooflike and virtually full mint red 625.00

1909, Indian Head, MS-65 ..... 495.00

1911-D, MS-65. From an original roll that came on the market last year. Even color. Scarce this nice..... 575.00

1922-D, MS-63 ..... 150.00

1927, MS-65 .....35.00

TWO CENT PIECES

1865, MS-65. Well struck with light gold toning and unbroken cartwheel. Full horizontal shield lines. A lovely example of a long forgotten United States series that is only now beginning to be appreciated 1450.00

FIVE CENT PIECES

1883, No CENTS, MS-65. A lustrous example of this only-year-of-issue type coin 925.00

1883, With CENTS, MS-65. Brilliant 1295.00

1897, Proof 63. Light toning with no significant impairments. Kept from a higher grade only by minor flyspecking 750.00

1912, MS-65. Typical strike for this year. Light toning with full radiant lustre. The last year of regular issue for Barber's classic Liberty Head design 1250.00

1913, Type I, MS-65. First year of issue for the popular Indian Head - Bison design. The Type I design shows the Bison standing on a mound of earth. This design was discontinued the same year when it proved too difficult to strike and subject to wear. Thus, the Type I nickel is an only-year-of-issue and as such is quite popular with collectors and investors. We currently have five attractive specimens in stock, all with some degree of toning. Each 525.00

1913, Type II, MS-63. Toned ... 225.00

1913-S, Type II, MS-63. In terms of marks, this coin is virtually perfect. However, we were forced to grade it MS-63 because of its weak strike. This nickel is one of several offered in this list that came from an old Wisconsin collection. While essentially brilliant, it does have flashes of blue and gold toning 750.00

1914, MS-65. From the same collection as the 1913-S and more darkly toned. A decent strike with good underlying lustre 525.00

1916, MS-65. Brilliant and very well struck. A perfect addition for any numismatic portfolio 335.00

1916-S, AU-55 ..... 150.00

1917, MS-65. Well struck on the obverse, average strike on the reverse. Just a hint of toning 395.00

1917, MS-65. A second specimen. Brilliant and very well struck. The finest example of this date we have had in stock for at least two years. A premium coin 450.00

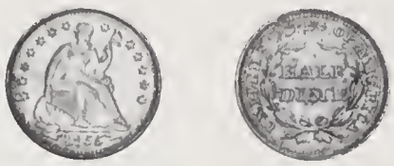
1918, MS-65. A lustrous, well struck coin. Somewhat brilliant on the reverse while the obverse has golden toning around the periphery. There is a bit of minor planchet roughness in front of the Indian's mouth that has toned darker than the surrounding area. Definitely of mint origin, this slight imperfection should in no way detract from this coin's beauty and desirability 695.00

1919, MS-65. Toned 395.00

1921-S, MS-65. One of the rarest of all Buffalo nickels in mint state. This coin has light slate blue toning with streaks of gold. The only imperfection worth noting is a very minor rim nick in front of the Indian's nose. Overall, a truly beautiful coin 2750.00

1925, MS-65. Light golden toning with better than average strike.... 395.00
1926, MS-63. Toned 190.00
1926, MS-65 ..... 275.00
1927-D, MS-63. Another lovely coin from the recently acquired Wisconsin collection. Pleasing strike with gold peripheral toning. Circular planchet depression in the center of the reverse. With gems selling in excess of $1200, this represents an opportunity to acquire an attractive, inexpensive example of one of the keys to the series 575.00
1929, MS-65 ..... 260.00
1929-S, MS-63 ..... 290.00
1930, MS-65. Toned 200.00
1930, MS-65. From an original roll 325.00
1930-S, MS-60 .....95.00
MS-65 ..... 650.00
1931-S, MS-63 ..... 275.00
1931-S, MS-65. Very popular with collectors because it has the second lowest mintage in the Buffalo nickel series. We currently have available two very lustrous specimens, each with light toning. Priced individually at 445.00
1942, Type II, Proof 65. The only year the silver Jefferson nickel (1942-1945) was struck in proof..... 495.00

HALF DIMES



1855, Arrows, MS-63. Lightly toned. Diagonal die striations with minor die clashing in obverse field. Weak denticles. A popular three year type coin with a mintage of only 1,750,000 ..... 2000.00

1858, MS-65. Beautiful lavender, gold and green toning on the obverse and light gold and russet toning on the reverse. Very sharply struck for a Half Dime. An attractive coin, perfect for the high grade or mint state type collection 3000.00

DIMES

1899, Proof 65. Toned with exquisite shades of gold, green and blue with flashes of russet. Full deep proof fields with complete wire rims on both the obverse and reverse. One of the more attractive proof Barber dimes we have handled in quite some time 3250.00

In our effort to write, photograph, print and deliver this *Paramount Collector*, occasional typographical errors may occur. We apologize for any inconvenience this may cause.

1900-O, MS-67. One of the scarcest of the New Orleans issued Barber dimes. This coin is far superior in quality to specimens of this date usually encountered. Mottled green and russet toning 3900.00

1910, MS-65. The obverse features areas of gold toning while the reverse has a light, even gold tint. A lovely coin for the type collector 1600.00

1918-S, MS-65. Very lightly toned. Even though the center horizontal band is not split, this coin is very well struck. A premium mint state example of this hard to find date 750.00

1930, Full Bands, MS-65. Light even russet toning 545.00
1936-S, MS-65 ..... 125.00
1936-S, Full Bands, MS-65. Uneven violet and russet toning..... 225.00

1940, MS-65 .....32.00

1945-D, MS-63 .....21.50

QUARTERS

1865, Transitional Pattern, J-425, Proof 65. Medium violet and golden brown toning. This specimen is very sharply struck with a high wire rim and deep mirror fields. It is identical in every respect (except for the date) to the design that was adopted the following year. This is a very rare transitional pattern with only 8-10 specimens known 14,750.00

1899-O, MS-63. Gray, green, gold, blue and violet toning. The reverse, with its multicolored appearance, is particularly appealing. A very rare and, until recently, under-rated date 2600.00

1909, MS-63. Fully brilliant and equal to many of the so-called MS-65's offered by others. Well struck, but we feel still a mark or two away from a higher grade 1450.00

1919, MS-65. Lustrous with a trace of light toning. Bagmark on the leg. Very close to full head. In fact, we have been offered coins with less detail as "Full Head." A beautiful example of this early date 4500.00

1920, ½ Head, MS-65. Even gold toning. Lustrous with full cartwheel. Another popular early Standing Liberty quarter 1750.00

1926, MS-60. Nice type coin ... 425.00

1926, ¾ Head, MS-65. Soft toning 1450.00

1927-D, MS-65. Fully brilliant with approximately 75% head detail. An attractive selection for a type set 1950.00

1927-D, Full Head, MS-65. Lightly toned 2850.00

1929, ¾ Head, MS-65. Perfect for the type collector 1450.00

1932-D, MS-65. Uneven dark russet toning. Completely natural toning with good cartwheel. The 1932-D quarter is the most sought after coin in the Washington series. This particular specimen was purchased while still in a paper envelope dated August, 1932. Undoubtedly it laid undisturbed in that envelope until recently. A seldom encountered opportunity for the specialist..... 3750.00

HALF DOLLARS

1828, MS-65. Radiant violet, gold and green peripheral toning changing to muted gold about Miss Liberty on the obverse and the eagle on the reverse. Well struck for the issue with a majority of the stars showing full center points and the reverse a full "E Pluribus Unum." A lovely type coin 3950.00

1829, MS-65. A very attractive specimen, well struck with frosty mint lustre and light golden toning. Full "E Pluribus Unum" 5250.00

1834, Large Date, Small Letters, MS-65. This coin features superb natural toning; gray, violet and greenish gold on the obverse and blue, gold and russet on the reverse. A strikingly attractive coin 5250.00

1859, MS-65. Beautifully toned with bluish-green colors about the periphery and the centers showing shades of gold and red. Sharply struck with every strand of hair on Miss Liberty's head well-defined. Semi-prooflike fields 7500.00

1859, Proof 65. Superb gold, russet and violet toning. Very well struck with deep mirror surfaces. A very rare proof with probably less than half the estimated 100 to 150 mintage still in existence 5500.00

1862, MS-65. Frosty with gray and gold toning. Rarer in this condition than any other No Motto half dollar of the Civil War period. Mintage of only 253,550 ..... 6500.00

1862, Proof 65. Lovely green, blue and russet toning with very deep proof fields. Sharply struck with no significant marks. A beautiful proof example from this Civil War year. From an original mintage of 550, this coin is undoubtedly one of the prettiest to survive 5500.00

1901, Proof 65. Golden brown toning with traces of violet and blue. Well struck with deeply mirror-like fields. Only 813 proofs struck ... 5000.00

1915-D, MS-65. This coin is perhaps the most attractive coin in this listing. Delicate reddish-brown and gold toning. An outstanding coin for the type collector or investor 6000.00

EARLY DOLLARS

1795, Flowing Hair, Fine 15. Even gray color. No significant problems, just honest wear. Reported mintage of just 160,295. The second year of a two year type. With the seldom availability of the 1794 dollar (and commensurate price), the 1795 Flowing Hair dollar has become very popular with collectors. The offering of this coin gives you the opportunity to obtain an attractive specimen of this type for a relatively inexpensive price 3500.00

1886-O, MS-64. Very sharply struck. Full lustre and brilliance but just a bagmark or two away from MS-65, in our opinion. The fact that we are using an MS-64 grade shows how much we think of this coin; this is one of the first times, if not the first, we have used such a grade. We seriously doubt if a more attractive example of this key Morgan dollar date is currently available on today's market 7500.00

THREE DOLLAR GOLD

1862, MS-63. Very pretty orange and green toning. The surfaces have considerable lustre as well as the die striations that are present on all known business strikes. There are a few light hairlines behind Liberty's head and below the bust, reducing the coin to MS-63, but reverse is of Gem quality. Very rare and underrated in this condition 22,000.00

United States Stamps

Any stamps that Paramount Philatelics offers to buy or sell will be strictly graded and will always fall into one of these descriptive categories. These will describe the appearance of the stamp and its actual grade. They are as follows:

VG — Very good, off center, perforations cut design
FINE — Slightly off center, perforations do not cut design
F-VF — Fine to Very Fine — Normal desired centering
VF — Very Fine, almost perfect
XF — Extremely Fine, Superb — A condition of perfection seldom encountered.

NH — Never hinged
LH — Lightly hinged
H — Normal hinging
HH — Heavy hinging
HR — Hinge remainders

NOTE: Certain 19th Century issues were perforated very close to the design. In some cases it is possible to have a well-centered stamp with the perforations just touching.
